

# FRAMEWORK

## METROPOLITAN BRANCH TRAIL

## Connectivity

Improve and Increase Access Points

**Short Term** 

Enhance Existing Connections

Improve bike storage facilities at key locations, such as Metro Stations

**Ongoing-Long Term** 

Anticipate Future Connections with New Development

### Safety

**Promote Eyes on the Trail** 

**Short Term** 

**Improve Lighting throughout** 

Install Cameras and Call Stations at Key Problem Areas

On-Going/Long Term -

Encourage active uses at connections and underutilized building sites

Orient new development toward Trail

### Identity

**Enhance Aesthetics and Sustainability** 

#### **Short Term**

Develop Mile Marker Program
- Will also improve Safety

#### **On-Going/Long Term**

Incorporate signature lighting and wayfinding at infrastructure crossings and key access points

Use LID projects to enhance quality and potentially raise revenue
